EXPERIENCE

FRC 604: Quixilver Robotics

Controls/Software Lead (10-11)

June 2023 - Present

California

- Develop team's competition data collection application, enhance robot capabilities and localization with computer vision and environmental sensors, contribute to team software (particle filter, time-optimal trajectory optimization software, yearly robot control architecture).
- Lead subteams in design, manufacturing, and programming of team robot while training new members to contribute to robot development.
- Contribute to community FRC tool TheBlueAlliance: global competition data aggregation and insight platform. Attend/host 20+ STEM community outreach events.

CA State Summer School for Mathematics & Science, UCLA

Brain-Inspired Computing Cohort Student

July 2024 - August 2024

California

- Investigated parallels of biological mechanisms to machine learning advancements (transformers, regression, etc).
- Developed audio generation ML architecture with UCLA funding.

Bay Area STEM Academy

Cofounder

April 2023 - Present

California

- Developed engaging curriculums, recruited mentors, planned and effectively taught in-person and online camps encompassing diverse STEM fields.
- Impacted 500+ students and raised \$4800+ to support organization costs, local STEM outreach initiatives, and Indian children healthcare foundation.

PROJECTS

StereoSampleGAN

GitHub Repo: <https://github.com/shuklabhay/stereo-sample-gan>

- Introduces a novel machine learning architecture to generate stereo, time-frequency representations of audio samples.
- Research project pending publishing, continuation of UCLA COSMOS 2024 Research.

Quickscout

GitHub Organization (Private Team Project): <https://github.com/frc604>

- Led development of flexible application to effectively capture and visualize FRC competition data. Trained 10+ team members in web dev to build app and adapt to yearly games.
- 130+ users on FRC604, data collected for 700+ robots.

Domotron (FRC604 2024 Robot)

Robot Website: <https://604robotics.com/2023-2024-crescendo/>

- Developed physics-based shot calculations, driver control automation, competitive autonomous routines. Designed climber winch mechanism and vertical elevator.
- Ranked 4/300 California teams, 12/3500 internationally. World championship division and two time California regional event winning robot.

VelocityDraft

Website: <https://shuklabhay.github.io/velocity-draft/>

- Leverages user writing abilities and essay deadlines to algorithmically determine best order of essay writing. Third place project in OneHacks III Hackathon.

EDUCATION

Leland High School

Junior

Expected June 2026

San Jose, CA

SKILLS

Technical Fields

AI/ML, Robotics, Signal Processing, CAD, 3D Printing, Webdev/Appdev

Other

Digital Audio Production, Graphic Design, Video Editing

HONORS & AWARDS

- NextFlex FlexFactor: Santa Clara Regional Winner
- NSE Level 2: Silver Distinction
- OneHacks III Hackathon: 3rd Place Submission

May 2024

May 2024

August 2023
