EXPERIENCE

FRC 604: Quixilver Robotics

2023 - Present

Controls/Software Lead (10-11)

California

- · Develop team's competition data collection application, enhance robot capabilities and localization with computer vision and environmental sensors, contribute to team software (particle filter, time-optimal trajectory optimizer, yearly robot control architecture).
- · Lead subteams in design, manufacturing, and programming of team robot while training new members to contribute to robot development.
- Contribute to community FRC tool TheBlueAlliance: global competition data aggregation and insight platform. Attend/host 20+ STEM community outreach events.

CA State Summer School for Mathematics & Science, UCLA

Brain-Inspired Computing Cohort Member

California

- · Investigated parallels of biological mechanisms to machine learning advancements (attention, visual processing, recurrent systems, reinforcement, etc).
- Developed audio generation ML architecture with UCLA funding.

Bay Area STEM Academy

2023 - Present

Cofounder

California

- · Developed engaging curriculums, recruited mentors, planned and effectively taught in-person and online camps encompassing diverse STEM
- · Impacted 500+ students and raised \$4800+ to support organization costs, local STEM outreach initiatives, and Indian children healthcare foundation.

PROJECTS

StereoSampleGAN

GitHub Repo: https://github.com/shuklabhay/stereo-sample-gan

- · Introduces a novel machine learning architecture to generate stereo, time-frequency representations of audio samples while optimizing computational efficiency.
- · Partially funded by UCLA, paper pending publishing.

Quickscout

GitHub Organization: https://github.com/frc604

- · Led development of flexible application to effectively capture and visualize FRC competition data.
- · Trained 10+ team members in web dev to build app and adapt to yearly games. 130+ users on FRC604, data collected for 700+ robots.

Domotron

Robot Website: https://604robotics.com/2023-2024-crescendo/

- · Developed physics-based shot calculations, driver control automation, competitive autonomous routines. Designed climber winch mechanism and robot vertical elevator.
- · Ranked 4/300 California teams, 12/3500 internationally. World championship division and two time California regional event winning robot.

VelocityDraft

Application Website: https://shuklabhay.github.io/velocity-draft/

· Open source webapp leverages user writing abilities and essay deadlines to algorithmically determine best order of essay writing. Third place project in OneHacks III Hackathon.

EDUCATION

4.00 UW A-G **Leland High School** Junior San Jose, CA

SKILLS

Technical Fields AI/ML, Robotics, Signal Processing, CAD, 3D Printing, Webdev/Appdev

Other Digital Audio Production, Graphic Design, Video Editing

HONORS & AWARDS

NextFlex FlexFactor: Santa Clara Regional Winner

2024 2024

• NSE Level 2: Silver Distinction

OneHacks III Hackathon: 3rd Place Submission

2023
